Notification of Alternative Means of Compliance
Regulation Reference: COMMISSION REGULATION (EU) No 290/2012; Annex: VI Authority Requirements for Aircrew [part-ARA]
Subject: Aeromedical Forms: Application Form for a Medical Certificate
Summary: The UK CAA will use amended templates for Class 1 and Class 2 application forms. It is only the format that has been amended; the content is consistent with AMC1 ARA.MED.135 (a) Aero-medical forms application form for a medical certificate.
<p>Implementing Rule:</p> <p>ARA.MED.135 Aero-medical forms</p> <p>The competent authority shall use forms for: (a) the application form for a medical certificate;</p> <p>Existing Acceptable Means of Compliance: AMC1 ARA.MED.135(a) Aero-medical forms APPLICATION FORM FOR A MEDICAL CERTIFICATE The form referred to in ARA.MED.135 (a) should reflect the information indicated in the following form and corresponding instructions for completion. See attached AMC 1 ARA. MED 135.(a) application form.</p> <p>UK Alternative Means of Compliance: Alternative AMC1 ARA.MED.135(a) Aero-medical forms APPLICATION FORM FOR A MEDICAL CERTIFICATE Alternative AMC 1 ARA. MED 135. (a) application form and Medical Administration Records System template attached.</p> <p>MARS IT Application Form Template Standard Paper Template</p>

Assessment:

The position of the fields and numbering of the conditions for the general and medical history fields on the application form have been amended due to duplication of some numbers on the published form in the Regulation and local IT constraints. Additional fields have been added to the Class 1 and 2 application form to collect data on an applicant's general medical practitioner.

The UK CAA electronically processes the application forms for Class 1 and Class 2 using the Medical Administration Records System (MARS). The fields cannot be changed in the electronic templates due to the complexity of the code required to populate the fields for printing copies of application forms with the applicant details in time for the implementation of the Aircrew Regulation. The numbering of the fields in the general and medical history area has to remain consistent with the records in the MARS database. The numbering cannot be amended until mapping is set up as part of data migration to a new IT system. A new IT system will not be available for some time.

Assessed as meeting the Implementing Rule ARA.MED.135 (a)

Approved for submission to the Agency by: *Sally Evans, Chief Medical Officer*
